PROFESSIONAL SUMMARY

Results-driven **Python Backend Developer** and **Team Lead** with **1+ year** of professional experience building and deploying production-grade applications. Currently pursuing **MCA from IIT Patna**. Skilled in **Python, Django, SQL, and MySQL** with strong **OOP principles**. Leading a **4-member team** delivering real-time telecom solutions processing data from **2,000+ remote sites**.

CORE TECHNICAL SKILLS

Frontend: HTML, CSS & JavaScript
Backend: C++, Python & Django
Database: SQL & MySQL
Tools: Visual Studio Code & Integrated Development Environment (IDE)

PROFESSIONAL EXPERIENCE

Software Developer | Team Lead

Nov 2025 – Present

Shroti Telecom Pvt. Ltd., Bhopal, MP

- Architected complete backend for **2 enterprise telecom platforms (RMS & Pushpak)** using **Python & Django MVT architecture**, reducing development time by **35%**.
- Developed **15+ REST APIs** using **Django**, enabling real-time hardware-to-web communication and improving data throughput by **40%**.
- Engineered **Python-based OOP backend logic** processing raw data feeds from **2,000+ remote telecom sites** into real-time actionable insights.
- Led a **4-member team**, conducted **50+ code reviews**, and delivered **100% of project milestones on schedule**.
- Optimized **MySQL schemas and queries**, reducing execution time by **50%** while managing **10,000+ daily data logs**.

Junior Software Developer

Nov 2024 – Oct 2025

Shroti Telecom Pvt. Ltd., Bhopal, MP

- Built and maintained **3+ web applications** using **Python & Django**, following clean code and OOP best practices.
- Automated database workflows using **Python scripting and SQL optimization**, reducing manual processing time by **60%**.
- Diagnosed and resolved **150+ bugs**, improving application performance by **30%** through systematic debugging.
- Collaborated across **3 cross-functional teams** (Design, QA, DevOps) managing codebase through multiple development cycles.

Software Developer Intern

Aug 2024 – Nov 2024

Netligent Technologies LLP, Bhopal, MP

- Developed a **full-stack web application** simulating Tesla's EV ecosystem using **Python, HTML, CSS & JavaScript**, achieving **95+ Lighthouse performance score**.
- Built a **responsive portfolio website** using **HTML, CSS & JavaScript**, applying clean code practices and reducing post-deployment bugs by **25%**.

KEY PROJECTS

- RMS – Remote Monitoring System:** Real-time telecom monitoring platform built with **Python, Django & MySQL**, processing **2,000+ remote sites** with **99.5% uptime**.
- Pushpak Telecom Platform:** Complete backend built with **Python OOP & Django**, automating **70% of manual reporting workflows**.
- Tesla EV Ecosystem Web App:** Responsive full-stack app using **Python, HTML, CSS & JavaScript** achieving **95+ Lighthouse score**.

EDUCATION

Master of Computer Applications (MCA)

2025 – 2027

Indian Institute of Technology (IIT), Patna

Pursuing

Bachelor of Computer Applications (BCA)

2022 – 2025

Sarojini Naidu Govt. Girls College, Bhopal

Grade: 72.70%

CERTIFICATIONS

Python Full-Stack Developer

2024

Netligent Technologies LLP, Bhopal, MP

Completed
